

A breakthrough opportunity in pharmacy benefits

Prescription savings for a healthier workforce.

Led by experts dedicated to the evolution of the pharmaceutical and healthcare industries, DiRx negotiates low pricing on the most commonly prescribed, FDA-approved generic medications sourced directly from the manufacturer.

Introducing DiRx Smart Pharmacy Plan

Unlimited prescriptions and refills for up to 1,000 eligible generic medicines.

DiRx customizable tiered plan delivers a prescription cost-containment solution as stand-alone benefit or as an add-on to existing MEC plans. Help employees that need to fill multiple or expensive prescriptions avoid unexpected pricing fluctuations or limited availability.

Competitive Formulary

Largest portfolio in the direct-from-manufacturer sourcing space. Ongoing strategic assessment for most competitive pricing and product additions.

Tiered Plan Flexibility

500 and 1000 product plans to scale to your workforce health needs.

Full Workforce Coverage

Support Full-time, Part-time, Consultants and employee off-boarding.

Turnkey Platform

Simple onboarding process with support from our Partnership Success team.

The **Smart Pharmacy Plan** covers the most commonly prescribed medication individuals need affordable access to, including prescriptions for heart health, mental health, diabetes, cancer, men's health, women's health, gastrointestinal health, dermatology, and antibiotics.
